

Green Side Up Environmental Services Native Plant Nursery

Native Plant Nursery

Green Side Up Environmental Services operates a 100% Ontario grown native plant nursery, supplying trees, shrubs, live stakes, brush mattress/fascine material and perennials for all landscape needs such as:

- Ecological Restoration
- Pit and Quarry Rehabilitation
- Commercial and Residential landscaping
- Constructed Wetlands
- Erosion Control.

All plant stock grown by Green Side Up Environmental Services is grown outside and not in greenhouses. This guarantees all stock is acclimatized and hardy to natural, seasonal conditions.

Green Side Up has provided high quality environmental, landscape construction and design services to residential and commercial clients for over 11 years. We service all sectors of government, community organizations, private landowners, consulting firms, engineering firms, landscape architects, conservation authorities, and municipal engineers to fulfill their environmental needs.
